KESHAV VYAS

Toronto, ON | (647) 540-3730 | keshavvyas600@gmail.com

EDUCATION

University of Waterloo Sept 2026 – Expected 2031
Waterloo, ON

University of Toronto Schools (UTS) Sept 2020 – June 2026
Toronto, ON

TECHNICAL SKILLS

Programming Languages: Python, C++

CAD & Design Tools: SolidWorks, AutoCAD

EXPERIENCE

Associate Front-End Developer (Intern) July 2025
Sun Life Financial Inc. – High School Experience Program

- Designed and built a Chrome extension that gives employees one-click access to Sun Life's internal AI tool from any browser tab, letting them use it alongside their other work instead of switching apps.
- Cut the tool's load time from **13+ seconds to under 1 second** (over 90% faster) and removed repeated login steps from the workflow.
- Presented the solution and its productivity impact to Sun Life **vice presidents**.

Independent Engineering Field Study Aug 2025
Mister Transmission – Cambridge, ON

- Conducted an independent study comparing multi-speed and continuously variable transmission (CVT) systems.
- Analyzed cost-benefit tradeoffs across efficiency, durability, repair cost, and maintenance complexity through hands-on observation of real vehicle service work.

Data Visualization Contributor Apr 2025 – June 2026
UTS Collaboratory, in partnership with the University of Toronto

- Built visualizations of doctoral research findings on adolescent mothers' access to essential services in Nigeria.
- Translated qualitative and quantitative research data into clear visual formats for academic audiences.

PROJECTS & LEADERSHIP

VEX Robotics – Senior Executive & Lead Builder Sept 2023 – June 2025
University of Toronto Schools Robotics Team

- Led mechanical design and build of competition robots as a senior member of the team's executive.
- Iterated on drivetrain and mechanism designs through rapid prototyping and testing to improve competition performance.
- Helped the team qualify for the **VEX Robotics World Championship three consecutive years**: Dallas, TX (2024, 2025) and St. Louis, MO (2026).
- Coordinated build schedules and mentored newer members on design and fabrication practices.

SELECTED PROGRAMS & AWARDS

Automobile Engineering Camp – Ohio State University Center for Automotive Research 2024
One of 22 participants selected worldwide

Catalyst Summer Program – University of Waterloo Aug 2024

DEEP Summer Academy – U of T Faculty of Applied Science & Engineering July 2023

VEX Robotics World Championship Qualifier – 3 consecutive years 2024 – 2026
